Dear Charles:

I enclose for your review a copy of the second draft patent application for the above-referenced invention, which incorporates the inventors' comments on the first draft, and which includes disclosure from file D-906. Please again forward copies to the inventors (or at least Mr. Watkins), and ask them to elaborate on the "mathematical modeling" referenced on page 10 of the second draft.

Following receipt of your comments, I will prepare the final application for filing.

Thank you.

Sincerely,

James P. Bergin
